

MetaPWR™ Recharge (Lemon Lime)

dōTERRA™ | EUROPE

PRODUCT INFORMATION PAGE

PRODUCT DESCRIPTION

Water makes up over 2/3 of a healthy human body. It lubricates the joints and eyes, aids digestion, flushes out waste and toxins, and keeps the skin healthy. Dehydration occurs when the normal water content in the body is reduced. This upsets the balance of salts and sugars in the body, which affects the way it functions. Staying hydrated is a simple but important way to keep your body functioning at its best.

Over 75% of us are dehydrated and lacking daily nutritional balance of key electrolytes to keep cells charged and energized. Hydration is key to a healthy metabolism, and healthy cells cannot produce energy without it. Electrolytes are essential for various bodily functions, like maintaining proper muscle and nerve function and regulating your body's fluid balance.

Water alone isn't enough. MetaPWR Recharge provides an exclusive blend of electrolytes involved in cellular hydration, including extracts like baobab and deep-sea ocean minerals from the Kuroshio Current in the Pacific Ocean.

USES

- Use daily along with a whole foods diet and regular exercise for desired results.
- Take in conjunction with the complete MetaPWR™ System to live your most powerful life.
- Read all caution and warning statements before use.

DIRECTIONS FOR USE

Shake sachet to activate. Empty liquid concentrate into 16 oz (470 ml) of cold water and enjoy.

CAUTIONS

Consult your physician before use if you're pregnant or nursing, have a medical condition, or take any medication. Keep out of reach of children.
